## BITESTRONG™ BITE-BLOCKS

### BITESTRONG™ - BITE BLOCKS

- **BATRIK Bite-Blocks** are designed to provide a safe passage through the patient's mouth during TEE thus protecting the patient's teeth as well as protecting valuable endoscope equipment.
- B4™ Bite-Blocks offer excellent all around protection and are extremely competitively priced.

- Lateral side openings on the B2™ and B3™ bite-blocks allow for additional suctioning. The B3™ has the largest lateral opening
- Available with or without a retention strap.
- BATRIK Bite-Blocks are individually wrapped in sealed easy to open PE bags
- Latex Free
