VASCULAR SILICONE TIES

BATRIK Vascular Silicone Ties permit safe and smooth retraction, occlusion and identification of vessels during surgical procedures.

Unlike other clamps and retractors which can pinch the vessels flat, or even crack them, the Batrik elliptical shape allows for the gentle handling of arteries, veins, nerves, tendons, spermatic cords, ureters, or when ever delicate retraction/occlusion is required.

THEY ARE:

- Manufactured of Medical Grade Silicone
- Do not rotate or twist on themselves when unpacked
- Easy to separate - eliminating the need for cardboard inserts
- Radio opaque
- Available in 4 colors and 4 sizes
- Latex Free
